This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Original) A bottle containing liquid medicine, the bottle having a neck containing a self-sealing closure, the bottle being flexible such that, when it is inverted or tilted downwardly, squeezing the bottle produces a flow of liquid medicine through the closure, and releasing the bottle terminates the flow of liquid medicine.
2. (Original) A bottle as claimed in claim 1, wherein the bottle has front and rear panels which may be urged towards one another to effect squeezing of the bottle.
3. (Original) A bottle as claimed in claim 2, wherein the front and rear panels are each outwardly bowed.
4. (Currently Amended) A bottle as claimed in claim 2 ~~or~~ 3, wherein the bottle is generally of box form, having larger front and rear panels connected to each other by two narrower side walls.

5. (Original) A bottle as claimed in claim 4, wherein the maximum width of the front and rear panels is at least twice the maximum width of the side walls.
6. (Currently Amended) A bottle as claimed in ~~any preceding claim~~ claim 1, having visually distinct upper and lower regions and a waist at the junction between them.
7. (Original) A bottle as claimed in claim 6, wherein the upper region has rounded, downwardly sloping shoulders extending from the neck of the bottle to the waist.
8. (Currently Amended) A bottle as claimed in claim 6 ~~or 7~~ wherein the lower region of the bottle tapers from the base of the bottle to the waist.
9. (Currently Amended) A bottle as claimed in ~~any of claims 6 to 8~~ claim 6 wherein the lower region is taller than the upper region.
10. (Currently Amended) A method of dispensing liquid medicine, using a bottle as claimed in ~~any preceding claim~~ claim 1.
